

To the organizers and the participants in the European Seminar “New Approaches to Learning as Key to Success”
Sofia, 19 – 21 November 2015

Dear Ladies and Gentlemen,

Accept my congratulations on organizing a seminar on such an important topic as the new approaches to learning. It reflects the tendencies in the development of the education in the European society and corresponds to one of the principles in the new Bulgarian Educational Act for Pre-school and School Education – innovativeness and effectiveness of pedagogical practices and organization of the educational process.

I am glad that representatives from national associations of independent schools from 13 European countries will share experience on this event. I hope the discussions will be useful for you as well as help you find new professional connections. I am sure the Bulgarian Association of Private Schools as a host of the seminar has ensured the best possible conditions for your event.

I wish all the participants successful work and a nice stay in our country.

Ms Vanya Kastreva
Deputy Minister of Education and Science
