

***EurECA***

*European Educators' Christian Association*

*European Educators'  
Christian Association*

**EurECA is not a national organization, but a network of Christian teachers and Christian educational organizations across Europe, helping Christian educators to teach Christianly and live out their faith in their educational settings. Our main focus is to encourage freedom of faith among Christian teachers, and thus Christian ethos. “Right to Education / Freedom of choice” is not prominent on our agenda, but we are very interested in what's happening in this area. We do see that laws across Europe vary greatly, and Christian schools are often at the mercy of the ruling parties and officials - so they often struggle for financial survival.**
